Shed Big Tears Here: Jingle Coin Jangles Aimee: Give Paper!

KANSAS CITY, Mo., April 29 .- Shed a tear for Aimed

KANSAS CITY, Mo., April 29—Shed a tear for Aimee Semple McPherson Hutton's jangled nerves. She can't stand the jingle of coins in the collection plate. A silent offering—paper money—would be preferred.

"My nerves are on edge," she told a revival meeting crowd here last night while the collection was neing taken up. "I can't stand to hear the jingle of coins. Make it a signot offering. I can't hear paper money.

The Final Liquidation

of the

Humphries-Anderson Vancouver wholesale stock of woollens, opens at the La Fleche Tailor Shop Saturday morning, 9 a.m., at prices constituting an all-time record for genuine tailored clothes Value. The balance of this huge woollen purchase has arrived from Vancouver for the wind-up of this super value

clothes buying liquidation.

are tailored ordinarily up to \$45.

suitings, Scotch and Irish fabrics, West of England worsteds, that were originally imported to tailor up to \$60.

Present day conditions challenge the business firm and the individual, alike. The La Fleche Tailoring Organization is prepared to meet the challenge with all the resources at its command. Enduring Tailored Clothes quality and value are the weapons. We're all feeling the pinch and our hat is in the ring . . . co-operating with our customers as we present high class Tailoring and Woollens at the lowest prices

Our timely purchase of the Humphries-Anderson Vancouver stock of tailors' woollens at a rate far below the primary mill cost empowered us to deal a crushing blow to clothes prices and still maintain the La Fleche high standard

Why buy short lived, nondescript, ready mades when you can have enduring La Fleche Tailored Clothes made to your personal order at so low a cost?

able, long service fabrics. New patterns and colorings. For young men as well as for the older and more conservative. Regular value

The final days of the Humphries-Anderson Wholesale Woollen Liquidation. Make time tomorrow to choose your suiting and have it secured before it's too late.

A deposit secures your order, balance deferred until you wish delivery.

Quality is the prime factor of genuine clothes economy.

FRIDAY, APRIL 29

DEVELOPMENT FAVORED

DEVELOPMENT FAVORED
Word comes from Ottawa that, whatever
policy is adopted the that, whatever
policy is adopted the done that the price of radeferment of the done that would prevent
the development of the mineral deposits discovered in the Great Bear Lake region.
The assurance is timely. The discovery
of these deposits has not been everywhere
halled with satisfaction. There have even
been indications of a more or less organized
plan to asserted the field, in the supposed
capital in a region so termote can accracely be
easy at the present time in any event. If
Overnment regulations were applied which
threw additional difficulties in the way, there
would be little prospect of active development
work on any large scale during the present
season.

Assurance that the official attitude is to be favorable to development is of course welcome news in Edmonton, which stands to benefit largely through the opening up of a great producing camp. It will be welcome as the decidence of the Demonton of the opening up of a great producing camp. It will be welcome as welcome and the control of the producing camp. It will be welcome of a great producing camp. It will be welcome of a great producing camp. It will be welcome of the producing camp. It will be welcome of the producing camp. It will be a supported to the catenta and who have learned of the extent and richness of the deposits that await exploitation in that region.

PAVED HIGHWAYS OR RAILWAYS?

PAVED HIGHWAYS OR RAILWAYS?

The main highways of the province have been closed to truck and bus traffic for two weeks. That of crew to truck and bus traffic for two weeks. That of crew the province have been closed to truck and bus the control of the public since these traffic and the common that the control of the public since these highway carriers are now depended upon to provide fright and passenger accommodation in every direction, and train services have been cut down accordings.

But a suspension of train, and train services have been cut for reconstruct the highways. Even in older provinces, these heavy vehicles are barred from all but paved roads during the apring thaw and the fall wet season. And the gravelled roads in Alberta are never and lead curbes that those in older provinces, where generations have speed time. The immediate effect is to brigg to attention again the standing question of what is to be done to adjust matters as between the highway carriers and the railways. Trucks and busses cannot, and cannot be expected to, maintain uninterrupted services to travel. But if the railways have to maintain men and equipment to give service during these in-bottween periods, how are they to make ends med, when the roads are dry and their rivali run away with the trailfor clare that we must.

The point seems the condition.

WHAT WE HAVE, WED BETTER HOLD.

WHAT WE HAVE, WE'D BETTER HOLD

WHAT WE HAVE, WE'D BETTER HOLD
France is a good customer of the Canadian
wheat grower. It is increasing its purchases
from him even in these times, when imports
from him even in these times, when it is
good-good times and times to the country
for the co

d-summer.

Whatever may come out of the Imperial ference, there is nothing in prospect that uld compensate the wheat grower for the so f a market that absorbed one-sixth of his ort crop last year. Canada could afford to ake pretty generous tariff concessions to hold tast market, since there is no likelihood of nding a new market of equal proportions using the Empire as a result of any imperial reference scheme.

THE DEADLY OFFENCE

Mayor Raiph II. Webb of Winnipeg is mad and says so. He declares he would be happier of there were no newspapers at all in the world. Quite a number of public men feel that way at times, but most of them have enough sense to not say so.

But His Worship is not satisfied with ex-terminating the pestilent papers in thought and guitting the hought in language. He wants somethind the papers were all the "impering, like beiling all." which is a cuting time to the papers by taking them fire extinguish the papers and particularly the abandoned reproducts who write editorials, are "datavian."

proprietors, reporters, and particularly the abandoned reproducts who write editorials, are "starring."

From which it is to be inferred that, should the worst come to the worst, it will do no good for the brethren of the local press to apply to the start of the local press to apply to the start of the local press to apply to the start of the brethren of the local press to apply to the start of the start

QUESTIONS AND ANSWERS

Questions I.V., sain: "Which has the meet dangerous effect on only system—the use of the x-ray or method the fluorescope machine? Does not the use of the fluorescope size more definite resulta? Would the use of either of the above methods for examination, and diagnosis, if used on the same individual say about once every two or three years for a general check-up, have any bad effect?"

have any bad effect?"

Answer: Next, poliume and the fluorescopio screen, both make use of the same type of x-ray machinic consequently one is not more changerous than the other. The only danger comes from the length of time of exposure. The time ordinarily used to conduct examinations to not changerous and has no bed effects went it used several times a year. While I thoroughly approve of the x-ray machine as a discrebatic help. I seriously quantum its value as a thereposite agent. X are placed to the property of the x-ray machine as a thereposite agent. X are placed to the property of the x-ray machine as a thereposite agent. X are placed to the x-ray machine as a thereposite parent. X are placed to the x-ray machine as the x-ray of t where one wishes to examine the movement of an in-ernal organ. The movement would not show on the

Question: Mr. Oregory E. writes: "A friend has a discharge on his pillow every morning that is tinted with blood. He chaims that it is caused by his gums objecting. He also coughs a great deal. Does it not seem that it is more serious trouble?"

Answer: Blood on the pillow may come from var-ous causes, such as nose bleeding, bleeding from to sums, coughing up blood, etc. If your friend coughs great deal, I would certainly urgs him to go to a ph-sician for examination.

What People Are Saying

ser the moviety and constitute the casmity or the age.

Conficient Perror—Manahrd is always subject to the old have property and the child of paics and labor, and wars and revisiblent generate poverty.

Upon Sinciat—With the improvement of the tech-nique of hangler, each war becomes more herrithe to contemplate, and whose yet when it becomes acting.

so contempate, and worse yet when it becomes reality.

The deeper currents of public options are those which gain their movement al-most uncherved and with quiet but irrestitute power awarp from their moverings of projudics and time-worn conceptions of the part.

Memory

Out of the friendables of our years, what comes?
Not trinkets given of allers and of gold,
But memories of the book a comrade thumbe;
Some scene he finds it pleasing to behold.
A footstep on the walk: a bed of flowers.
Friends live in these through all our waking hou

Lives are enriched by memories far more Than by high fortunes favors. To the end He leaves his presence safe within the door Who once has paid a visit as a friend. The hearth fire biases and an unseen throng Oathers to chare the laughter and the song.

I sometimes their details give them make to be doubtime companions for our formation day. Although no make their miles our regions day. Although no make their minister our cause or. With the who well remember still they sign. The living suffer absence, but the decad May walk with as the horizon path we trend the department of the depa

rm, ranging from fifteen to TOWN WORRIES

For Three Days

THERE IS SOLID ROCK UNDER CANADA'S FEET

NSTEAD of straining our eyes looking "around the corner" for that phantom which men call "Prosperity" and never overtake, let us look at some facts:-

Our natural resources are still beyond any accurate estimate; our national wealth over \$30,000,000,000,

Our banks are solvent.

Their debits are 11 per cent. more to-day than they were ten years ago.

Their savings deposits more than 22 per cent.

Twice as much life insurance is in force,

While the optimists were peeking around that "comer" and the minor prophets whispering blue ruin, Canadian corporations in 1931 paid out in dividends \$226,351,000, an increase of \$32,500,000 over the average for six years, and \$50,000,000 better than any year in Canadian history prior to 1929.

Why should Canadians stop working to shake apart with Fear? All the "terrible things" that were to happen are fading out of focus.

Outsiders knocked down our dollar but our bills to the world have been paid, our taxes met, our hungry fed, and our helpless sheltered.

Masses are always blinded by the immediate view, but our Canadian people are coming to see that a riot of economy is just as foolish and just as dangerous as a riot of extravagant

Sane men of every class must realize the necessity of keeping a constant unrelenting contact with this market that is slowly and surely regaining confidence in itself.

> There is no contacting medium so close to the Canadian consumer as his daily newspaper.

DOMESTIC, APARTMENT HOUSE AND COMMERCIAL REFRIGERA-TORS, ELECTRIC WATER COOLERS

JONES & CROSS LTD.

10011 101st Street

10014 - 101st Street

A GAIN General Electric leads the way. Last year it was the first electric refrigerator to offer two additional years' guarantee beyond the standard one-year warranty. Now it introduces a 4-YEAR SERVICE PLAN which protects every new buyer against all expense on the Monitor Top refrigerating mechanism for 4 years.

Such a broad guarantee has been made possible by General Electric's freedom from maintenance costs. In five years' time—in more than 1,300,000 homes—General Electric has established an unequalled record of expense-free performance. Here is further convincing proof that General Electric Costs Less to Own.

Investigate the Monitor Top and you will find the reason for General Electric's economy. This unit contains all the simple mechanism, permanently guarded against air, dirt and moisture.

Why delay longer? Take advantage today of the new low prices and 4-YEAR SERVICE PLAN offered on the General Electric. Your dealer will install a G-E Refrigerator in your home for \$10 down.

To Mothers, Wives and Sweethearts:

Are cheap clothes holding your man back?

The man in the picture is getting along. He may not be as brainy as your man, but he always looks deserving of more money-and he gets it.

If your man pays less than \$27 he will eventually find the cheap suit very costly.

If a first class suit a suit that makes a man look successful - could be made to sell for less than \$27, Tip Ton Tailors would make it

Many men had paid forty, fifty, sixty dollars or higher for clothes before they learned about Tip Top Tailors and even then they didn't get the style, the fit and the wearing quality of Tip Top Tailored clothes

Hundreds of thousands of mers create for Tip Top Tailors a tremendous buying power. This means big savings. These savings go to Tip Top customers in the form of extra refinements, extra values

Tip Top customers can select their clothes from a wide variety of pat-terns, expertly designed styles and woollens from the choice weaves of world-famous mills. Their clothes are cut and tailored by skilful craftsmen to 21 personal measurements. Tin Top Tailored clothes fit

he is always dressed for advancement

Clothes don't make the man-but they help a lot. Don't let cheap clothes hold your man back. Encous age him to buy his next suit or top coat at Top Top Tailors.

22 Personal Measurements:

Perfection in the fitting of a Tip Top Tailored
suit begins in the store when the tailor takes
21 of your personal measurements. And your
sair will be out singly, by hand, as marked on
individual's withyour measurements as guide.
It will be inspected and checked against every
entry on your measurement chart. That is why
gament they make.
